

Palisades Power Plant

Safe. Secure. Vital. Covert Township, Michigan

Palisades produces enough electricity to power **800,000 homes**

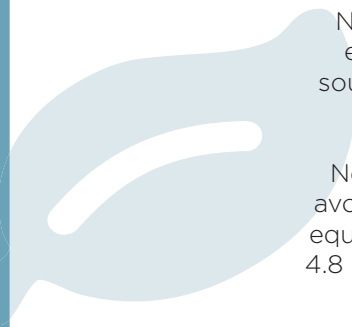

Palisades provides more than 800 megawatts of safe, clean, vital energy to Southwest Michigan. Nuclear energy is a price-stable source and does not fluctuate like natural gas prices or other fossil fuels. Michigan's four nuclear energy facilities generate over 27 percent of the state's electricity.

Additional investments totaling approximately \$250 million are planned over the next five years. Like all U.S. nuclear plants, Palisades is regulated by the U.S. Nuclear Regulatory Commission (NRC). Two NRC resident inspectors are assigned to Palisades full-time.

Since acquiring Palisades in 2007, Entergy has **invested \$358 million** to enhance the safety and reliability of the plant.

Produces electricity with virtually **no greenhouse gas emissions**

Nuclear energy produces 91 percent of Michigan's emission-free electricity and is the only clean-air source that can produce large amounts of electricity around the clock.

Nearly 25 million metric tons of carbon dioxide are avoided by Michigan's nuclear energy facilities, which equals what would be released in a year by more than 4.8 million passenger cars, more than all the registered cars in the state.

Palisades provides **600 highly skilled** full-time jobs for men and women in the area, plus another **1,200 specialty jobs** during refueling outages.

Palisades pays \$11.2 million in annual taxes, making it the largest tax payer in Van Buren County. The plant also contributes \$71 million in annual payroll.

Independent inspectors from the NRC spend **more than 6,000 hours** each year reviewing safety performance at Palisades.

Entergy and Palisades employees **provide over \$325,000** in charitable contributions to community events and non-profit organizations.

Palisades Power Plant

THE POWER OF OUR PEOPLE

Here in Southwest Michigan, we're guided by a common spirit of giving to neighbors, families and others in need.

The 5.8 million megawatts of electricity generated at Palisades in 2014 powers more than homes. To proud Michiganders like us — your friends and neighbors at Palisades — it's equally important to give back to our communities. Here are just a few of the local organizations and initiatives that our people and our company proudly support:

- South Haven Area Emergency Services
- South Haven Area Senior Services
- Covert Public Schools
- Van Buren Intermediate School District
- City of South Haven
- Covert Township
- United Way
- Susan G. Komen Breast Cancer Foundation
- We Care Food Pantry
- National Blueberry Festival
- Blessings In A Backpack
- Homes For Our Troops
- Michigan Audubon Society
- Lake Michigan College
